FOR IMMEDIATE RELEASE
9 A.M. EDT, August 1, 2008

**DISNEY-MCLANE & ASSOCIATES TO REPRESENT IPS CORPORATION AND
TRUEBRO IN INDIANA, KENTUCKY, OHIO, WESTERN PENNSYLVANIA &
WEST VIRGINIA**

About IPS Corporation

For over 50 years, IPS CORPORATION has continually redefined the state of the plumbing industry. IPS was the first company to produce a reliable cement for use with PVC, CPVC and ABS pipe and fittings. Our products are recognized for their labor saving efficiency and convenience.

1954: IPS **WELD-ON** developed the first solvent welding products for America's plumbing industry, establishing a new standard for drain, waste and vent systems. That makes us responsible for decades of success enjoyed by plastic pipe and fitting manufacturers.

1969: IPS **WATER-TITE** introduced the first recessed plastic washing machine box which was so well received by the industry, it has been widely imitated by other manufacturers. It is, in some form, a standard fixture in virtually every home built in America today.

1978: IPS **WATER-TITE** regained the industry's favor with the first recessed ice maker box. It too has been massively duplicated by other manufacturers.

1987: IPS **WATER-TITE** introduced the first adjustable, multi-size residential roof vent flashings. It conveniently minimizes the roofer's inventory by eliminating the need for single sized roof flashings for each vent pipe diameter on the job.

~ MORE ~

The TRUEBRO brand has been dedicated to "Making America Accessible" by creating products that address ADA-mandated undersink accessibility.

Engineering expertise, uncompromising production standards, and commitment to ongoing product development has positioned Truebro as the product of choice in both the new construction and retrofit markets. Specifying TRUEBRO is your assurance of protecting people with disabilities while providing quality, durability, and improved aesthetics.

Effective Dates for Representation are:
